4. Read the following text, then answer the questions::

You probably have a fridge in your house to keep your food cool, but have you ever thought about what people did in the past ? People have used ice to keep food cool for thousands of years. In the north of Europe in winter, people were able to use snow or ice, which they kept underground for many months. In 1842, an American doctor called John
Gorrie invented a machine to make ice. He used it to keep people cool when they got an illness called "yellow fever". By 1900, places that sold meat in the USA started to have fridges and today, nearly all homes in the USA have a fridge in their kitchen.
We continue to use the same technology for fridges that we have used for a century. The problem Is that a room with a fridge in it is a lot nosier and hotter than other rooms I Now people are designing modern fridges that are neither hot nor noisy. These are going to use less energy too, so they will be more efficient.
